TV & ENTERTAINMENT

---

The living room includes one Smart TV. The winter room also includes a TV.

HEATING

---

During winter, the house heating system will be on before you arrive. The heating uses the same labeled switch area as the water-heater system. To reduce or turn off heating in a room, adjust the radiator valve in that room.

HOT WATER

---

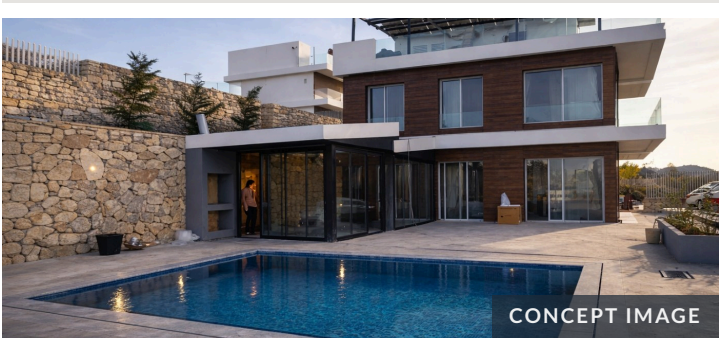

Hot water is available during your stay. It can be turned on from the labeled switch. During summer, turn on the labeled switch and allow approximately 15 minutes.  
*If any issue, contact Oraya before attempting a reset.*

GARBAGE

---

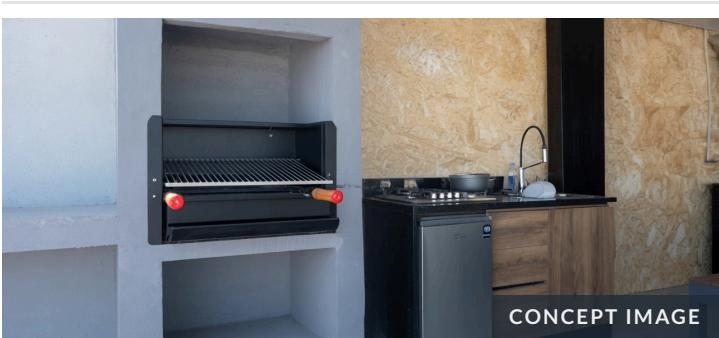

Every room has a small bin. Two large cans are outside. Place all garbage in the outdoor cans — not on the street.

POOL & POOL COVER

Maintained before your stay. Remove the cover before swimming and replace when finished; if heated, the cover retains warmth. No diving. Contact Oraya for any pool issue.

BARBECUE

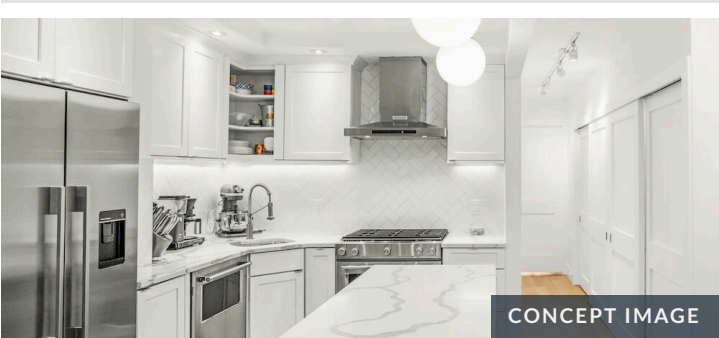

Covered outdoor BBQ outside the winter glass room. Kit included. Open the gas valve and ignite; after use, close the valve and let it cool. Never leave unattended while lit.

FIREPLACE & DIESEL STOVE

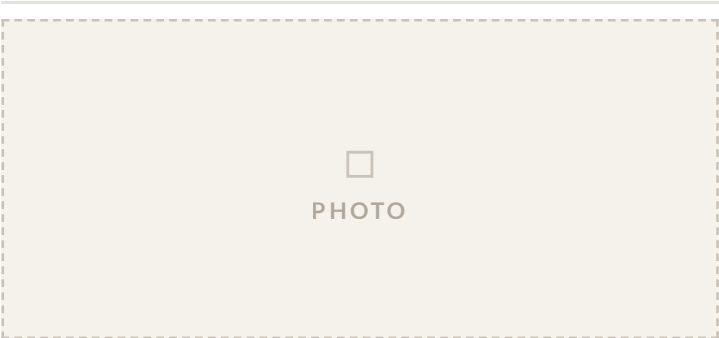

Traditional Lebanese diesel stove in the winter glass room — full tank, oven compartment, and warming surface. Use only as instructed; extra diesel may be charged separately.

KITCHEN

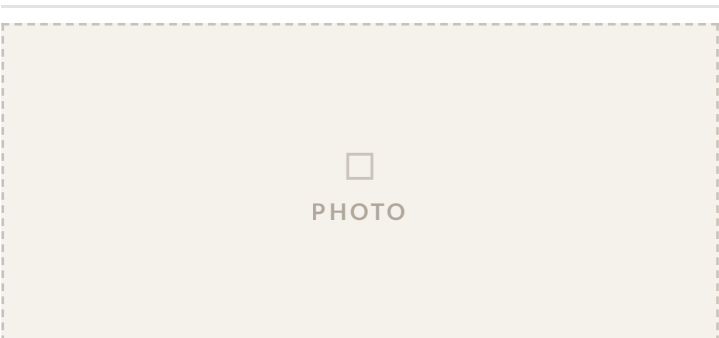

Fully equipped: gas cooktop, oven, microwave, kettle, cutlery, and glassware. The winter-room kitchenette also has a sink and counter.

BATHROOMS

Towels and amenities are provided. Hot water is ready — see page 2 for switch details. Used towels can be left on the bathroom floor.

WINTER ROOM

Accessible from the kitchen or outside. Panoramic glass view, kitchenette, TV, and lounge seating — an extra living area in winter.
